DEFINITION - CONTEMPORARY PHOTOGRAPHY

May be defined as the concept which stimulates the mind of the viewer, to interpret the message conveyed through the creative use of line, form and colour.

Nature Photography

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archaeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality. Human elements shall not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves. Scientific bands, scientific tags or radio collars on wild animals are permissible. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible.

Nature Pictures which have been modified but preserve the truth of the statement may be entered. Any images that show an obvious alteration cannot be entered into the nature section but can be entered into the Open sections.

PRINT ENTRIES SHOULD BE POSTED OR DELIVERED TO :
